KN 9.61

RIVET REMOVAL PLIERS

Applicable to VW-Audi 1.6 and 2.0 Common Rail Diesel engines.
Fitted to: Audi A1 (8X), A3 (8V), A4 (B9, 8W), A5 (8F), A6 (C7, 4G), Q3 (8U), Q5 (8R), TT (FV, 8S); VW Golf VII (AU), Passat (B8, 3G), Scirocco III (13) etc.

Alternative tool: VAS 211 007, T40195

For removing press-fit injector seal rings from the cylinder head quickly and with ease. The pliers are also designed to unlock and pull out the re-usable two-part plastic body-bound rivets from door and underbody panels. The pliers head can be adjusted up to an angle of 90°, thus allowing you to work even in hard-to-reach areas.

Made in Germany
