KL-1000-20 - Steering Knuckle King Pin Press 65 t

Universal application.

Field of Application

This press enables steering knuckle king pins on lorries to be pressed in and pressed out quickly and without any problems. Thanks to its special and compact design featuring an integrated hand pump, hydraulic cylinder with high-speed pneumatic lift and return stroke, as well as a universally pre-adjustable press frame and exchangeable bridge, the hydraulic press can be used directly on the vehicle.

Technical Data

- Compression force:65 t
- Clearance between puller bolts:275 mm
- Clearance height (max.):480 mm
- Stroke:120 mm
- Nominal pressure:420 bar
- Air supply:13 bar
- Weight: approx. 130 kg
- Oil filling volume: approx. 35 Litres
- Noise level: >60 dB(A)

Scope of delivery

Part No.	Description	Qty.
KL-1000-20	Steering Knuckle King Pin Press 65 t with sleeve set	1
<i>consists of:</i>
